

SEASONAL POSITIONS AVAILABLE FOR 2023 (mid-April to August)

Belmont Farm Supply Inc. is one of the largest farm input suppliers in Southwestern Ontario, and a member of the Agromart Group. We provide progressive farmers with all their crop input needs from planting through to harvest, including fertilizer, seeds, and chemicals. We have a state-of-the-art fertilizer blending facility built in 2019, from which we can ship custom blends in minutes. Our seed warehouse holds a full line of corn, soybean, and forage seeds, including bulk handling and treatment. Our services include crop plans with soil sampling and fertility recommendations; custom application of fertilizers and pesticides; bulk seed treatment and shipment; and crop scouting and pesticide timing.

We have seasonal positions (from mid-April to August) available for 2023. These are particularly suited for college or university students. Agricultural experience is helpful, a “G” license is required, and the right attitude is appreciated. The successful applicant will demonstrate good organizational, time management, communications, and customer service skills. We have a required orientation session and some on-line safety courses that must be successfully completed prior to starting work.

Duties include:

- Assisting in shipping and receiving bulk fertilizer, seed, and chemical products
- Deliveries to farm customers as required
- Interacting with customers in a professional manner
- Maintaining a neat and tidy workplace
- Other tasks as assigned

If you think you are the right person to join our staff, please send a resume to:

P.O. Box 310, 14000 Belmont Road, Belmont, Ontario N0L 1B0
