

## CROP INPUT DELIVERY DRIVER

Belmont Farm Supply Inc. is one of the largest farm input suppliers in Southwestern Ontario, and a member of the Agromart Group. We provide progressive farmers with all their crop input needs from planting through to harvest, including fertilizer, seed, and chemicals. We have a state-of-the art fertilizer blending facility built in 2019, from which we can ship custom blends in minutes. Our seed warehouse holds a full line of corn, soybean, and forage seeds, including bulk handling and treatment. Our services include crop plans with soil sampling and fertility recommendations; custom application of fertilizers and pesticides; bulk seed treatment and shipment; and crop scouting and pesticide timing.

*We have seasonal positions (from mid-April to July) available for 2024!*

### **Key Responsibilities:**

- Assisting in shipping and receiving bulk fertilizer, seed, and chemical products
- Maintenance of related equipment
- Customer deliveries
- Interacting with customers in a professional manner
- Maintaining a neat and tidy workplace

### **Qualifications:**

- Valid DZ License
- Positive mindset
- Good organizational and time management skills
- Willing to work extended hours and weekends during peak times of the year
